

Planning Meeting Checklist

This Planning Meeting Checklist includes the supporting evidence that you may be asked for during your planning meeting. Every person is different, so you may not require everything listed in this checklist. Review the list carefully and be sure to bring as much supporting evidence as possible to your meeting. This checklist is designed for new NDIS participants who are preparing for their first plan. If you are already an NDIS participant and need to prepare for your plan review meeting, we have a Plan Reassessment Checklist available instead.
